Employment & Education

Intuit June 2009 - Present
Senior Interaction Designer

- Worked in the experience design group of the accounting professionals division to create desktop, mobile and web-based software for accountants.
- Interfaced with teams of engineers on projects to communicate requirements. Created wireframes, prototypes, led user research, summarized results, and designed finalized layouts.
- Helped code frontends for applications in HTML5, CSS3, JavaScript, jQuery, and Flex / ActionScript.
- Led workshops and helped plan the company-wide XD Forum.
- Presented ideas and concepts to senior leadership members and perpetuated design thinking throughout the company.

imageVisible Sept 2006 - July 2008
Web Designer

- Designed and coded web site frontends, backends, banners and animations
- Worked on a variety of clients, both national and local
- Worked with clients to manage scope, and aided other frontend designers, developers and contractors.

KnightWorks May 2005 - August 2006
Web Designer

- Designed, coded and spec'd HTML and Flash-based backends and front ends for the web.
- Attended video shoots, edited footage, and created rich internet applications for e-Learning companies.

Thinking Inc August 1999 - Oct 2000
Web Designer

- Hired on at the early age of 16, I designed, coded, tested and maintained all of the company's HTML page layouts.
- Occasionally did production work on brochures, business cards pamphlets.

Freelance Jan 2001 - Present
Swiss Army Knife

While attending school and working part time, I started taking on freelance jobs. I continue to do this in my spare time in an attempt to keep myself sharp.

Texas A&M Commerce May 2009
